FEARLESS
FRED'S
Big Woodland Adventure

Written & illustrated by
Dorothy Lloyd Griffiths

My name is Fred. I'm just a puppy, six months old.

They call me Fearless Fred because I helped save the Queen's jewels.

I am a Border Terrier. My coat is brownish and I have lots of bushy whiskers round my nose and eyes. Food gets in my whiskers when I eat but I clean them with my paws.

I live with my family in London. But my family are going away on a summer holiday for two weeks to France.

They think I am too young to go but I think it would be fun.

It has been decided that I must go and stay in the country with Grandma and my cousin Bronwyn. They call her Bon for short.

My sister Isla has packed my case with all my toys.

This will be my new Adventure

Grandma's House

I know I will be sad as I will miss my family very much.

At first I just curled up in front of the fire like a little ball, with Bear and Mouse.

Grandma and Bon started to worry about me as I was so sad.

Bon then had a good idea and asked Grandma if she could give me a big juicy bone to cheer me up.

I felt much better after Bon gave me such a nice juicy bone.

Then I felt very hungry and began to eat all the lovely food they gave me.

At the bottom of Grandma's garden there is a large wood. At first it was very scary but I soon felt it was my very own wood.

When Grandma and Bon took me for a walk, my little tail could not stop wagging.
